BALTIMORE FIRE & POLICE

7. Cassedy, J. Albert.

THE FIREMEN'S RECORD. AS GLEANED FROM ALL AVAILABLE SOURCES OF THE HISTORY OF THE BALTIMORE CITY FIRE DEPARTMENT FROM ITS EARLIEST INCIPIENCY TO THE PRESENT TIME, COVERING A PERIOD OF THREE CENTURIES, ALSO AN ACCOUNT OF THE LARGE FIRES OF THE WORLD. Firemen's Relief Association, 1911. Published in 1911 for the benefit of the Firemen's Relief Association, The Firemen's Record by Albert J. Cassedy documents the history of the Baltimore Fire Department for three centuries,

from its inception through 1911. According to the introduction, the relief association was formed to be of assistance when "one of their number has sacrificed his life to save that of another, and when his charred and crushed remains are conveyed to his once happy home, his widow and children will not be thrown on the cold charity of the world" (page 3). This book details multiple early Baltimore fires, tells of how the first fire truck was purchased by the city, explains how fires were extinguished before fire trucks (a process involving many buckets), and gives detailed reports of the great fires of 1873 and 1904. It is a surprisingly riveting history of fire, death, destruction, bravery, and survival. Also included are bylaws, rules, biographical sketches of chief officers, a map of the "pipe line system" (fire hydrants), numerous illustrations, and an overview of other large fires around the world. Very good in red cloth boards with gilt illustration of a fireman rescuing a child from flames on the front cover and gilt title to spine. Wear and fraying to corners and spine ends. 31. Scharf, Col. J. Thomas.

CHRONICLES OF BALTIMORE; BEING A COMPLETE HISTORY OF "BALTIMORE TOWN" AND BALTIMORE CITY FROM THE EARLIEST PERIOD TO THE PRESENT TIME.

Baltimore: Turnbull Brothers, 1874. FIRST EDITION. A detailed history of the city beginning with Captain John Smith's exploration of the Patapsco River and ending with the great Baltimore fire of 1873. As dry as it may sound, The Chronicles not only includes the commonly known timeline of events; it is enhanced with details about the residents, local businesses, plays, fashion, and more. He explains how the Canton neighborhood got its name, cites when the streets were first paved and when wallpaper was first used in Baltimore, and even discusses dental transplant trends. According to Scharf, his research came not only from journals, newspapers, and books, but "from musty records on the brink of decay, from odd places and unexplored corners, which by accident of fire or flood or time's hard touches, might otherwise have been forever lost to us" (page viii). A

noted historian of his day, Scharf (1843 – 1898) was once called "Baltimore's Venerable Bede", and his work continues to be of great value due largely to the inclusion of passages from primary source documents. Very good in three quarter tan leather with marbled paper covered boards. Raised bands, gilt decoration, red leather title label, and green leather author label to spine. Loss to leather on top front cover, minor chipping and wear to leather on spine ends and hinges, wear to corners and edges of boards, and minor rubbing to boards. Clean, bright interior. 42. **THE BLACK PAGES.**

Baltimore: Jaki Hall Enterprises, [1980].

A scarce directory of African-American businesses in Baltimore and its suburbs. A mayoral proclamation reprinted here states that this is the first comprehensive directory minority businesses, services, and professionals in the metropolitan area. Its publisher, Jaki Hall states that the purpose of the directory is to encourage black people to take the helm and steer their own economic course, including supporting each other and keeping their dollars in the black community. There is a history of black business in Baltimore, an economic forecast for the 80s, awards, and then the listings by category. With photos and advertisements throughout. It appears that this is the only edition of the directory published. Very good in black paper covers with white spine and white title to front. Slight rubbing and chipping but very good. Interior pages also very good save for handwritten ownership information on the first page. A useful reference for Baltimore and African-American research. 108 pages. (#29602)

INDUSTRIES OF MARYLAND. A DESCRIPTIVE REVIEW OF THE MANUFACTURING AND MERCANTILE INDUSTRIES OF THE CITY OF BALTIMORE.

New York, Philadelphia, and Baltimore: Historical Publishing Company, 1882.

SCARCE. Emphasizing the industrial growth of Baltimore, this book includes copious reviews of Baltimore businesses intermingled with illustrations, advertisements, and a concise history of the city. Detailed information on exports, imports, population, products produced, and business growth is also provided. Many Baltimore businesses are listed and reviewed in no apparent order with favorable notes about their services, staff, and location. Following is an excerpt from one listing for a highly regarded doctor: "Reader: if you are afflicted with a disease which has baffled the skill of all others, go to see Dr. Kohler, learn something of his wonderful treatment and be cured ... Dr. Kohler is a native of this city, and merits a place in this work as a benefactor of suffering humanity" (page 271). The businesses represented range from pharmacies

to oyster packers to ice shippers to photographers to tobacconists to undertakers – and include many more.

Presumably once common, this is a scarce book today as it quickly became irrelevant and disposable (like an old copy of the Yellow Pages). It provides a fascinating look at the Baltimore business scene during the 1880s. Very good in original blue paper wrappers with title and illustration to front cover.

Chipping to spine and edges of wrappers. Tape repair to inside of front cover and to foot of spine. Light dampstaining to edges of covers and to bottom margin of first few pages. Interior is lightly browned but clean overall. Binding is fragile but intact. A fascinating look into the trade and industry of Baltimore during the 1870s and 1880s. 376

Baltimore: Patapsco Land Company, 1874. First Edition. Presentation inscription from William C. Pennington to the architect Benjamin H. Latrobe dated November 14, 1874.
